The majesty and elegance of marble, custom made to create this exquisite table lamp.

A solid, circular piece of green marble designed to sit vertically.

This is a heavy piece and as such is very thick to provide the stability necessary to achieve the support of the whole.

Accompanying the marble, a satin brass tube crosses the front face inside which, is the LED light source.

The grandeur of this piece comes to shine on its own.

This item is available in customised form on request.
