Contemporary table lamp made from brass, the noblest material for decorative pieces.

The lamp is made up of twelve blown glass tubes and is based around a circular brass base with brass stem.

In its centre is a drum brass screen that gives it a supreme elegance and causes light to refract around the inside creating a diffused glow.

The piece is hand crafted in our workshop, with a satin brass finish.

Light emanates from inside the screen and travels through the glass tubes, this in turn creates a diffused light effect when illuminated.
