Contemplating this lamp brings us closer to nature and makes us explore inside in search of that cheerful spirit that inspires its finish of polished silver and glass balls of different colours.

A ceiling lamp that simulates a curved tree branch with its derivations in the form of smaller branches, made of brass with the technique of casting lost wax as the ancient sculptures have done.

The similarity of the branches with a natural branch achieves maximum perfection because they are small sculptures with maximum detail and realism, manufactured by hand by our own artisan sculptors.
