A ceiling lamp based on vertical and curved bars forming a shell. Adorned with a branch and brass leaves which are made using lost wax casting, a thousand year old technique used by ancient sculptors to recreate superior fine detailing.

The similarity of the leaves to a natural leaf reaches near perfection since they are small sculptures with maximum detail and realism, all handmade by our artisan sculptors.

The parallelism of the bars and decoration of highly polished gold together with the sculptural leaves is an ornamental feature that highlights the grandeur of the design.
