Wall Lamp

This elegant wall light design is based around the sun and is reminiscent of how the Inca civilization depicted it in images found from 1200BC.

Delicate sheets of gold leaf are placed by hand with great patience adding an aged finish and texture to the centre piece.

From the centre disc thin chromed rods of varying lengths are distributed around its circumference. The design is further adorned with small gold orbs that are placed randomly along the length of the rods.

Behind the central disc is housed an LED strip that emanates light outwards creating a halo effect.
