Window is a wall lamp made of brass with a satin finish.

Represented by a vertically oriented rectangle made of square brass tubes, Window creates an elegant design that is made stronger by the linearity of the tubes and the perfection in the corners.

This design is a counterpoint to the spherical white glass lampshade from which the light of the whole is born.

Finally, Window is attached to the wall via a rectangular brass base which balances the whole design.

This item is available in customised form on request.
